

key benefits

- fast application
- strong tape bond
- ready to use
- reduce cleaning and mixing time

mastatape-in

taping compound

mastatape-in is an air drying compound for bedding tape into recessed edges and butt joints for plasterboard systems. It is also suitable for second coating joints, for internal and external corners as well as fastener heads. **mastatape-in** is ideal for use with mechanical taping and setting tools, minimising time spent cleaning and mixing; perfect for projects where access to water is limited.

performance

Efficient

Saves time by reducing mixing required and minimising the need to clean tools after each mix.

Body

Smooth, creamy and ready to use, MastaTape can be easily adjusted to the desired consistency with clean water.

Taping

Flows freely from mechanical tools for fast tape application, and effortless second coating.

Drying

Efficient drying with time available for fine edges when feathering or re-trowelling.

Strength

Provides a strong joint when used with paper tape. Ideal for jointing and internal corners.

Sustainable

Low VOC meeting sustainable building project requirements.

product information

product size	16kg bucket
type	Air drying premixed paste
drying time	24 hours
system usage	✓ Bedding ✓ Second Coat ✓ Standard ✓ Fire rated ✓ Wet area systems
voc	<50g/L
approximate density	1.65 g/cm ³

application

- Dilute to the desired consistency with small amounts of clean tap water. Always use clean tools and containers.
- Use **Siniat paper tape** with **mastatape-in**.
- Maintain a minimum 10°C working temperature during application and drying.
- Allow **mastatape-in** to dry completely between coats.
- For the strongest ready-mix joint, use **mastatape-in** for the second coat.
- Setting cements like **mastabase** and **mastalongset** must not be applied over air drying compounds.

optimise product performance by:

- Firmly closing the lid to prevent the compound from drying out.
- Washing tools before product dries and hardens.

Quality
ISO 9001
SAI GLOBAL

All Siniat products have been developed to meet the specific needs of the Australian market. Products manufactured in Australia comply with quality systems certified as complying with AS/NZS ISO 9001:2008 and meet the requirements of AS/NZS 2588, Gypsum Plasterboard.

The following Siniat products have been independently certified by Global GreenTag to GreenRate Level A: **mastashield**, **fireshield**, **fireshield h**, **soundshield**, **watershield**, **spanshield**, **multishield**, **curveshield**, **opal**, **trurock** and **trurock HD**. Compliance certificates are available on siniat.com.au.

All Siniat plasterboard and metal products are available on the Siniat Carbon Neutral Opt-In program to help you meet your sustainability goals. Visit siniat.com.au to find out more.
